Project Information Request Form

New Zealand

Project Information Request Form

Steel Shield™

Purpose of form: To be used by Dulux Accredited Powder Coaters to request additional project information from architects, builders, fabricators, asset owners or other parties involved in the project requiring a Steel Shield™ Project Warranty. This information can be collected and entered into pre-approval warranty applications. This form cannot be used as a warranty application.

1. Powder Coater requesting project information (Powder Coater to complete)

This Dulux Steel Shield™ Project Warranty application is being made by the following Dulux Accredited Powder Coater.

1.1 Business Name

1.2 Address

Street

Suburb

City/Town

Postcode

1.3 Completed by

1.4 Email

1.5 Phone

2. Project contact details

Project information in this form has been provided by:

2.1 Business Name

2.2 Address

Street

Suburb

City/Town

Postcode

2.3 Completed by

2.4 Email

2.5 Phone

3. Project information

Please complete the project name and address:

Each Dulux Steel Shield™ Project Warranty is attributable to a project and a location. The project name must detail that location and building/item. This information is critical to identify the project and the warranty, eg Canterbury Hospital, Block A.

Please note this cannot be a fabricator or a builder business name.

3.1 Project Name

3.2 Address

Street

Suburb

City/Town

Postcode

Country

4. Additional project information

4.1 Project value:

☐ Under \$5 million
 ☐ \$5 - \$20 million
 ☐ \$20 - \$50 million
 ☐ \$50 - \$200 million
 ☐ Over \$200 million
 ☐ Unknown

4.2 Estimated Project Start Date

4.3 Dulux Specification (optional)

If you have received a Dulux Duspec Specification for this project please detail the specification reference number below:

Specification number

If you require a specification speak to your Account Manager or call our Advice Line. Our dedicated consultants can help simplify the specification process, saving you time and money by providing the right coating advice for your project. Call 0800 800 975 or visit duluxpowders.co.nz

5. Project type

5.1 Please select which project type the Powder Coating is for:

Non-habitable

Residential
← 4 Levels

Residential
→ 3 Levels

Light Commercial
← 4 Levels

Commercial
→ 3 Levels

Prestigious
Commercial

Monumental

5.2 Select below the substrate material being coated:

☐ Mild Steel

☐ Bright/Semi Bright Steel

☐ Black/Blue Steel

5.3 Please detail below a description of the item being coated:

6. Location

6.1 Select below the site location:

If you are unsure please refer to the Steel Shield™ documentation, visit duluxpowders.co.nz/specmap, speak to your Dulux Account Manager or call the Advice Line on 0800 800 975.

Exterior			
Mild - Low C2 Example environments: Arid, urban, inland, city,	Mild - Medium C3 Light Industrial, geothermal (>500m from source) ¹ and inland coastal (mild sea spray zone)	Severe - High C4 Sea shore (medium sea spray zone), offshore Islands ³ and or geothermal (<500m from source) ²	Severe - Very High Marine & Industrial C5 Sea shore (high sea spray zone eg.surf), offshore Islands ³ and heavy industrial

¹ Geothermal environments greater than 500m of a bore, mud pool, steam vent, or other source with a pH between 5 and 9. For a pH outside this consult Dulux.

² Geothermal hot spots within 500m of a bore, mud pool, steam vent, or other source.

³ All offshore islands including Waiheke Island, Stewart Island, Fraser Island and Pacific islands eg PNG, Fiji, Samoa, Tonga, Tahiti, Noumea

6.2 Select the proximity of the site to coastal, river and lake salt water environments:

Less than 10m from high tide

Between 10 and 100m from high tide

More than 100m from high tide

Interior			
General Interior Very low C1 Dry interiors (homes, offices, shops)	General Interior Low C2 Minor condensation (warehouses, sports halls)	Moderate Interior Medium C3 High moisture (dairy and food processing plants, breweries, and commercial laundries)	Moderate Interior High C4 Significant contamination (swimming pools)

7. Proximity to liquids

7.1 Is the powder coated asset near any liquids other than coastal, river and lake salt water environments?

Chemically treated

Clean tap, fresh
or potable water

Salt water

Other (describe)

N/A

For 'Other', please add detailed description:

7.2 Select the proximity to these liquids:

Less than 1m from the liquid

1m to 2m from the liquid
(ie outside the splash zone)

Greater than 2m from the liquid

7.3 Micro Environments

Select if the projects micro environment is located in any of the following heavy industrial classifications:

Chemical manufacturing,
storage or processing facilities
and agricultural buildings

Mining

Transport terminals
(eg. airports, train
stations, car parks)

Other industrial
environments
(contact Dulux for Advice)

No, the location
is not heavy
industrial

8. Steel Shield™ Project Warranty being applied for

8.2 Colour choice

You may add up to 4 colours from the same product range.

Colour 1 details:

Please detail if chosen colour is a stock line from our range (this will be detailed on your price list) or is a made to order line.

Stock Line Made to Order

Please detail the chosen colour and product code.

8.3.1 Colour Name

8.3.2 Product Code

Colour 2 details:

Please detail if chosen colour is a stock line from our range (this will be detailed on your price list) or is a made to order line.

Stock Line Made to Order

Please detail the chosen colour and product code.

8.3.1 Colour Name

8.3.2 Product Code

Colour 3 details:

Please detail if chosen colour is a stock line from our range (this will be detailed on your price list) or is a made to order line.

Stock Line Made to Order

Please detail the chosen colour and product code.

8.3.1 Colour Name

8.3.2 Product Code

Colour 4 details:

Please detail if chosen colour is a stock line from our range (this will be detailed on your price list) or is a made to order line.

Stock Line Made to Order

Please detail the chosen colour and product code.

8.3.1 Colour Name

8.3.2 Product Code

9. Other parties involved in the project

Please detail below all parties involved in this project where applicable:

9.1 Fabricator:

Company Name

Main Contact

Phone Number

Email Address

9.2 Steel Blaster (if off site):

Company Name

Main Contact

Phone Number

Email Address

9.3 Builder or Developer:

Company Name

Main Contact

Phone Number

Email Address

9.4 Architect, Specifier, Designer:

Company Name

Main Contact

Phone Number

Email Address

9.5 End user, asset owner or consumer if applicable:

Company Name

Main Contact
